

**AUT  GRAPH**

**Visual story**

**Family SEND  
Workshop  
at Autograph**

with Katriona Beales

Today we are going to Autograph for an art workshop.

Autograph is a gallery. A gallery is a place where art hangs on walls for everyone to see.

In the art workshop I can create things with my family.

Autograph is located in East London. The building looks like this.

The outside of the building will have the word Autograph on it.

I will find the door to the gallery by following the arrows on the outside of the building.

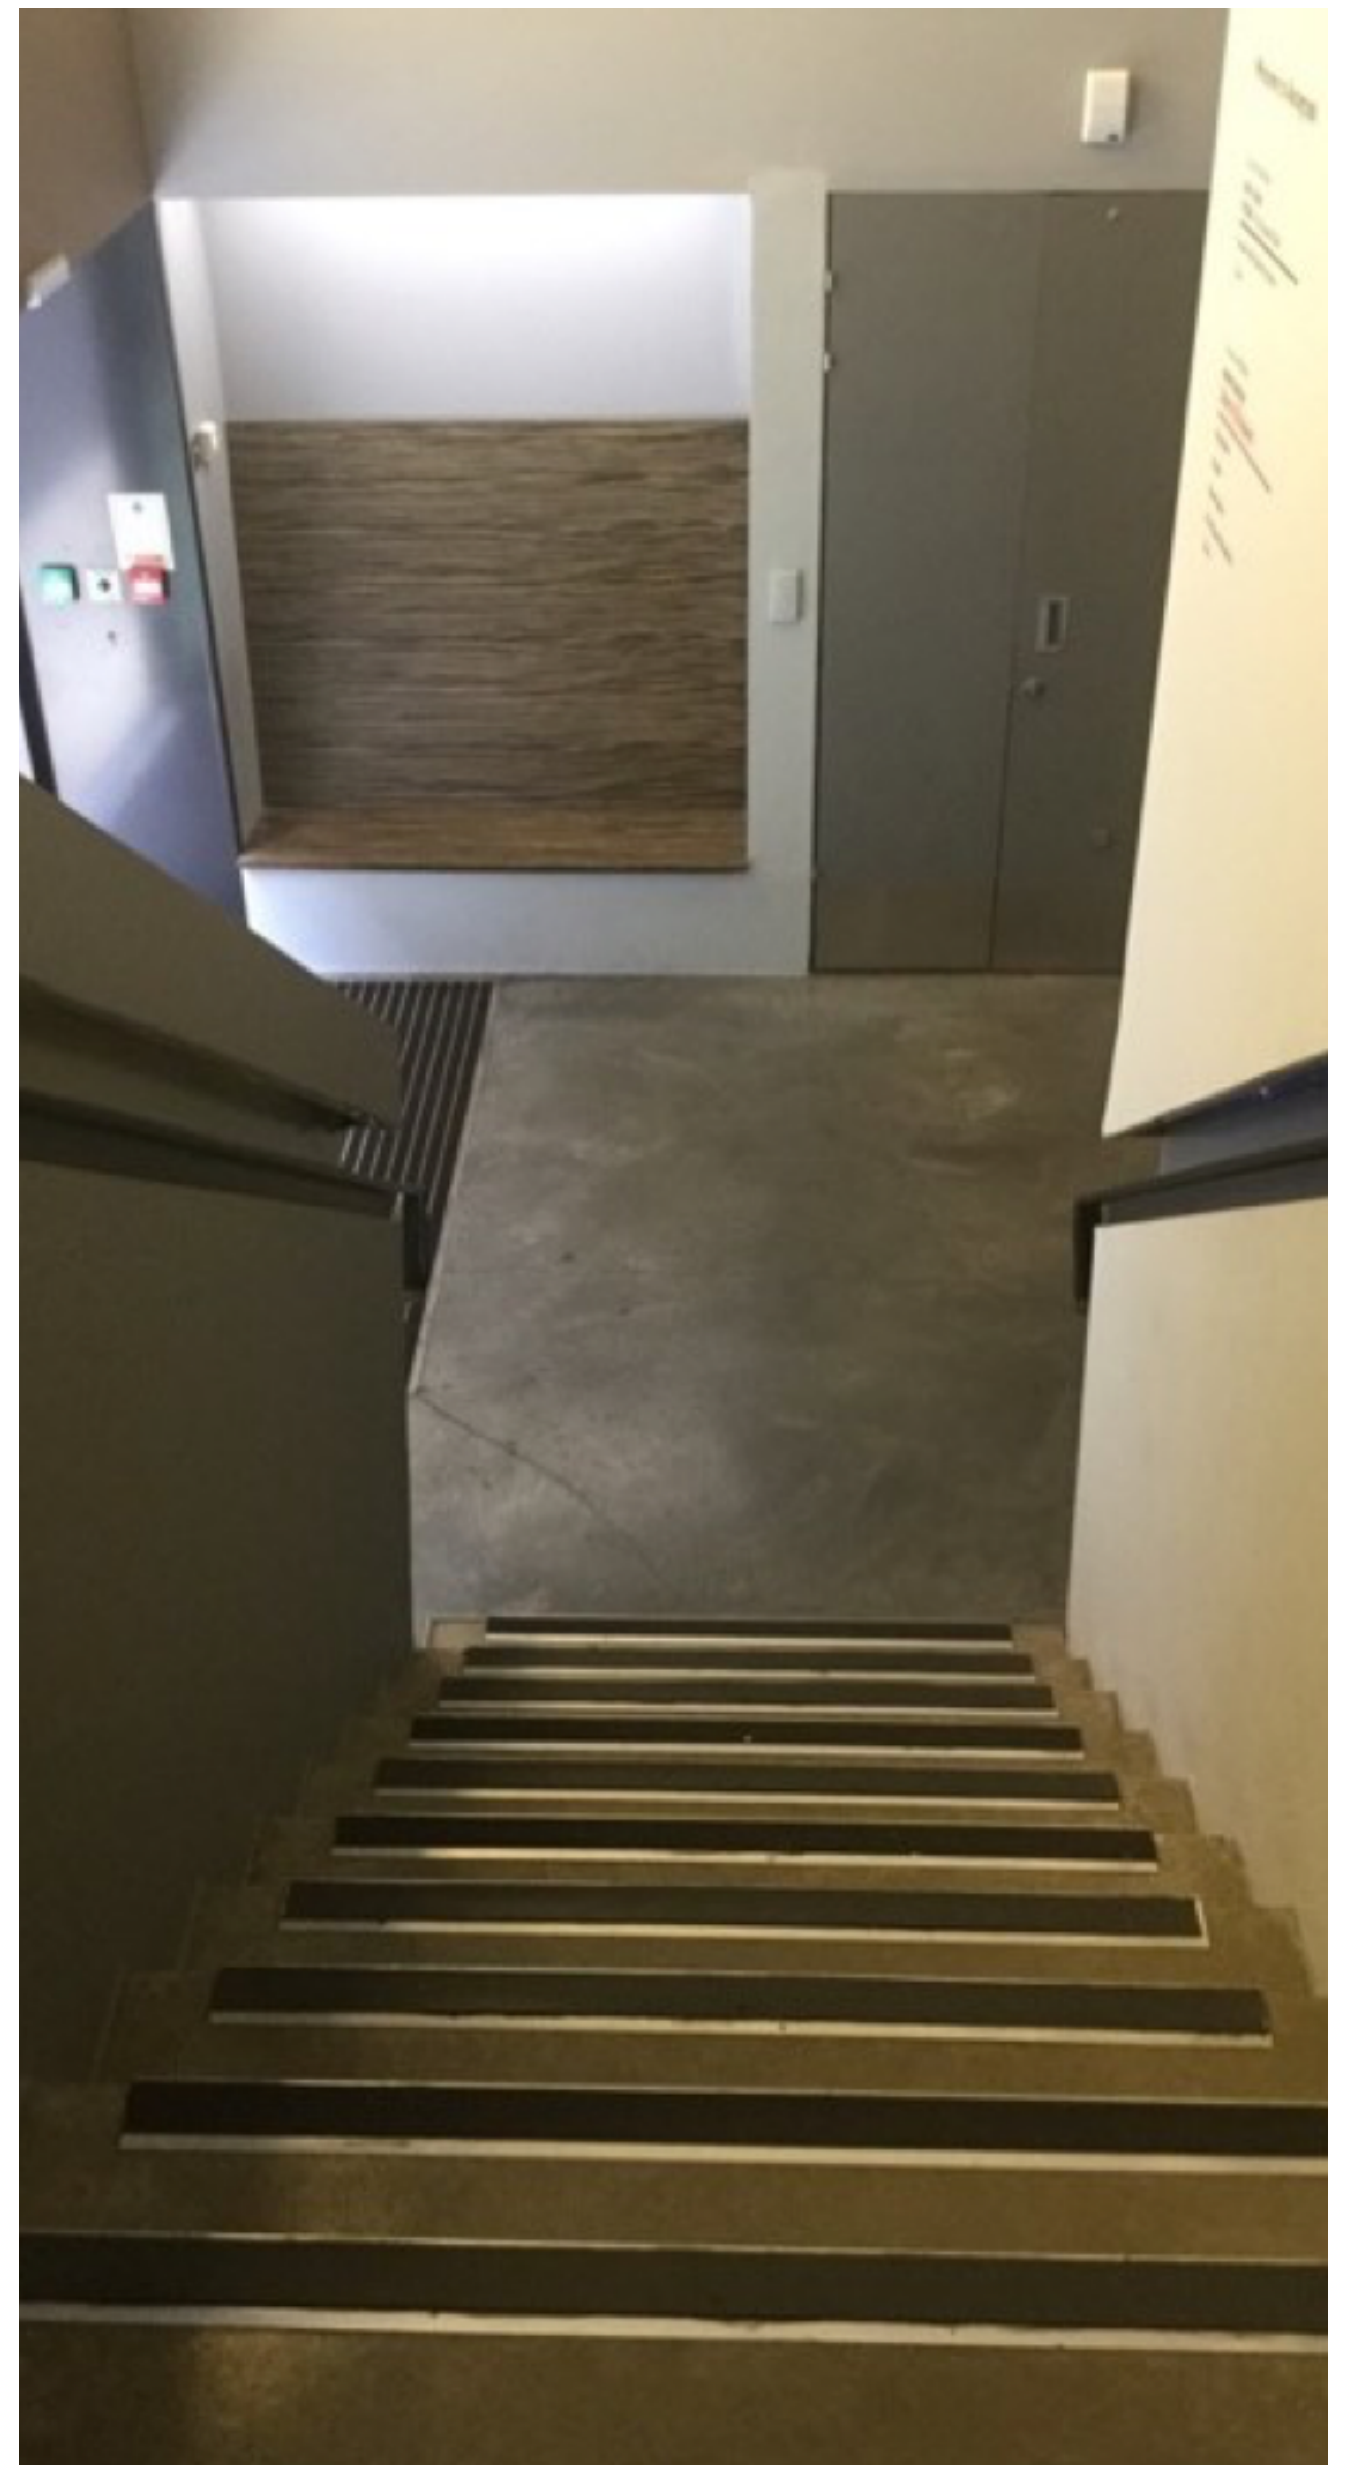

When I arrive, I will go through a large glass automatic door.

I'll then go into the reception area, which looks like this.

The workshop will take place in Gallery 2. To get to Gallery 2 I can take the lift or the stairs to the second floor.

This is what I will see when I look through the door to Gallery 2.

I will meet Katriona, Livvy, Jasmine and Anya, who can show me around the Gallery and help me at the art workshop. Here is a picture of them.

Katriona

Livvy

Jasmine

Anya

There will be lots of materials and objects around the room.

Including lots of green material, beanbags and sensory toys.

I can join in with whatever I feel like doing.

The adult/s with me can join in too.

There will also be other adults and children taking part in the art workshop.

I am allowed to play and explore in the art workshop.

There will be plenty of time to try different things.

When the workshop is finished, I will be given a smiley face sticker.

With my adult/s I will go out through the reception and exit the gallery from the same door we came in.

I will make my way home.
